To Whom It May Concern:

Thank you for your letter of December 6, 2005, inquiring about INVISTA's commitment as a chemical sponsor in the Environmental Protection Agency (EPA) HPV Challenge Program. Specifically, you inquired about the status of *Cyclohexene, 4-ethenyl-* (CAS RN 100-40-3), commonly known as 4-Vinylcyclohexene, or 4-VCH.

INVISTA fully supports the HPV Challenge Program, and we reaffirm our commitment to sponsor 4-VCH. As you may recall, we only recently (April 2005) transferred HPV commitments from E. I. du Pont de Nemours and Company to INVISTA S.à r.l., as part of our acquisition of certain businesses from DuPont.

We are now in the process developing the data package, but will not be able to submit it to EPA by the end of 2005. Rather, we will submit the data package in the first quarter of 2006.

I hope this clarifies INVISTA's status regarding this chemical. If you have any questions or need additional information, please contact me at (316) 828-1342.

Sincerely,

James D. Jernigan, Ph.D.
Product Safety Manager
